EDUCATION

GRAPHIC ERA UNIVERSITY Dehradun, India	2023 – 2025
Master of Computer Applications CGPA: 7.4	
GRAPHIC ERA UNIVERSITY Dehradun, India	2020 – 2023
Bachelor of Science in Information Technology CGPA:7.6	

SKILLS SUMMARY

- **Programming & Databases:** Python, SQL, PostgreSQL, SQLAlchemy (Async)
- **GenAI & LLMs:** LangGraph, LangChain, LangSmith, Adv RAG, Tool Calling, MCP, LLM Agents, Claude Code
- **ML / DL:** Scikit-Learn, TensorFlow, PyTorch, LSTM, Transformers, Transfer Learning, Fine Tuning
- **NLP & Retrieval:** NLP Pipelines, Embeddings, Semantic Search, ChromaDB, FAISS, Vector Databases
- **Data & Visualization:** Pandas, NumPy, Matplotlib, Seaborn
- **MLOPs & Infrastructure:** Docker, MLflow, AWS (EC2, S3), Redis, CI/CD (GitHub Actions)
- **Tools & Platforms:** Git, GitHub, Jupyter Notebook, VS Code, PyCharm, Grafana
- **Backend & APIs :** FastAPI, REST APIs, API Integration, JWT Auth, Secure API Communication

PROJECTS

Agentic AI Assistant with MCP Integration | [GitHub](#) | [Demo](#)

Tech Stack: Python, LangGraph, LangSmith, FastAPI, MCP, Groq, Ollama, PostgreSQL, Docker, APIs

- Built an Agentic AI Assistant using LangGraph and MCP, integrating 7+ tools for expense management, web search, stock analysis, weather, and local events.
- Developed custom MCP servers with SQLite and remote MCP integrations, enabling autonomous tool execution through natural language.
- Integrated LangSmith, Groq, and Ollama for agent observability, workflow tracing, and improved debugging efficiency by ~60%.

Multimodal AI System | [Live](#) | [GitHub](#) | [Demo](#)

Tech Stack: Python, LangChain, Streamlit, Chroma DB, Google Gemini (LLM), LangGraph, Embeddings

- Built and deployed a Multimodal RAG platform for querying YouTube videos, PDFs, and documents, indexing 1,000+ chunks for semantic retrieval.
- Implemented a **Corrective RAG (CRAG) pipeline** with embeddings, vector search, and retrieval validation, improving response accuracy by ~30%.
- Developed a LangGraph-based query router that dynamically selects knowledge sources, improving answer relevance by ~25%.

Agentic Trip Planning System | [Live](#) | [GitHub](#) | [Demo](#)

Tech Stack: Python, LangGraph, FastAPI, Streamlit, Groq, LangSmith, SQLite, Geoapify, Tavily, Render

- Developed an AI-powered travel planning system using LangGraph and Groq LLMs to generate personalized multi-day itineraries based on user preferences, budget, interests, and travel dates.
- Integrated travel APIs for weather, hotels, attractions, geolocation, and transportation recommendations.
- Deployed on Render with persistent trip history, Markdown export, and LangSmith monitoring.

EXPERIENCE

Data Analytics Intern | [Infyntrek Systèmes](#) | [Certificate](#) Sep 2025-Dec 2025

- Performed data preprocessing, feature engineering, and EDA using Python and SQL for ML workflows.
- Built and evaluated ML/DL models using Scikit-Learn and TensorFlow, delivering actionable insights.

HACKATHONS

- Participated in HackerRank Orchestrate June 2026, building and presenting an AI agent in a 24-hour hackathon.

CERTIFICATES

Introduction to MCP (Anthropic) | [Certificate](#) || FastAPI for Machine Learning (Campus X) | [Certificate](#)

AI Primer Certification (Infosys) | [Certificate](#) || Principles of Generative AI Certification (Infosys) | [Certificate](#)
